

News Release

VOXX Advanced Solutions Corporation to Debut Live-Streaming Wearable Body Camera at IACP 2017

HAUPPAUGE, NY – OCTOBER 19, 2017 - [VOXX Advanced Solutions Corporation \(VASC\)](#), a wholly-owned subsidiary of [VOXX International Corporation](#) (NASDAQ: VOXX), today announced the Company will showcase ACCU.C 4G, a streaming 4G wearable body camera at the upcoming IACP Show in Philadelphia, PA (October 21 – 24). ACCU.C 4G was designed for the specific needs of law enforcement officials and will also service the private security and public safety sectors. ACCU.C 4G will be demonstrated inside the Traffic Logix/Blue Line/VOXX Booth (#1017) at the show.

ACCU.C 4G, a streaming 4G wearable body camera integrates streaming communication into a rugged, portable and reliable design, which is sure to surpass all expectations with a perfect combination of form and function. Designed for the specific needs of law enforcement officers, the ACCU.C 4G body camera provides clear, accurate video and audio footage for limitless use cases far beyond the capabilities of standard body cameras available today. Recording in full high-definition video with a super-wide viewing angle up to 120-degrees and built-in GPS for real-time location tagged videos, the ACCU.C 4G body camera provides users the ability to stream and/or record events as they happen. This device also provides certified users with a real-time assessment of ongoing events as they are happening and can live stream footage to nearby connected devices with text alert notifications.

“The introduction of ACCU.C 4G provides advanced technology to law enforcement, private security, public safety and other organizations with the ability to stream, capture and record real-time situations as they occur, beyond what is available in the traditional body camera market today. The addition of the ACCU.C 4G body camera for law enforcement officers will now give them the same capabilities that most cell phone equipped bystanders have today,” said Tom Malone, President, VOXX Advanced Solutions Corporation.

Additionally, this camera features a 2.0” digital LCD screen for instant playback and review, offers the ability to set pre/post event recording, captures still-photos during video recording and enables audio memo recording. The ACCU.C 4G body camera is extremely versatile in any situation with up to a 10-hour battery life, waterproof housing, infrared night vision, and multiple mounting options and accessories.

The ACCU.C 4G body camera provide a complete and secure end-to-end solution, with a smooth transfer from event capture to file upload always preserving the complete integrity of a secure chain of custody for all audio and video content. The camera will automatically upload content captured via Wi-Fi, LTE and/or direct download when placed into charging stations, so footage is never handled by human hands. The data management software is the last piece to making this a complete end-to-end solution, providing users with remote archiving capabilities to store, manage, search, and review captured footage.

Learn more about the ACCU.C Body Camera at the Traffic Logix/Blue Line/VOXX Booth (#1017) on the IACP Show floor at the Pennsylvania Convention Center in Philadelphia, Pennsylvania.
