Omega Now Shipping a New Deluxe Keyless Entry System

DOUGLASVILLE, GEORGIA – OCTOBER 2, 2017 – Omega Research & Development Technologies, Inc. is now shipping the new EXCALIBUR branded KE-170 Deluxe Keyless Entry System. This keyless entry system has programmable features like Passive Lock, Auto Re-Lock, Ignition Lock/Unlock, Confirmation Chirp and Anti-CarJacking capability. The hardware has been built with features like Driver's Door Priority, Trunk Release, Starter Interrupt Output, Built-in Domelight Supervision Relay, Positive & Negative Parking Light Outputs, Push Button LED/Valet Combo, and Negative Horn Honk Output.

The systems come packaged with two unique remotes, one is a slim 4-button design with an elegant metal frame and the second is an OEM design that resembles some of the most popular factory remotes. Both remotes have clear pictograms on each button for easy operation. The system is built to provide many years of worry-free operation and if there is ever an issue the KE-170 is covered by a lifetime warranty.

About Omega:

Omega Research & Development Technologies has been an innovative leader in the vehicle security industry for over 40 years. Since its founding in 1971, Omega's product line has diversified to include remote start modules and other vehicle accessory products. Omega's most recent product offerings include the exciting new technologies of telematics, wireless and databus integration.

With the vision of the founder, Kenneth Flick, guiding the company, auto security systems remain the central focus

of Omega Research & Development Technologies. In 1995, Omega became the only company in the keyless entry arena with a technology designed to prevent crime due to unauthorized transmitter access to vehicle systems. The patented technology, **Unauthorized Transmitter Alert**, promises to revolutionize the industry. Consumers can now have instant knowledge of any unauthorized access to their keyless entry systems. Most of the product lines manufactured by Omega are equipped with Unauthorized Transmitter Alert technology.

Omega's mission, as it was over four decades ago, is to provide reliable, leading-edge security and automotive accessory products at a competitive price.
